This thousand-year-old ancient town showcases Tujia stilted houses, water ports, and commercial districts. Beyond reflecting differences from historical districts in other cities, Zuosui Ancient Town embodies the integration, inheritance, and innovation of Ba culture, Tujia culture, and Han culture. The town’s essence lies in the intertwining of port culture, merchant culture, and town culture. Next to Puhua Cave Chongqing Puhua Dark River Scenic Area, situated in the Zuoshui section of Puhua River, Qianjiang District, is a tributary of the Apeng River. Chongqing's City Cable Car, operational since 1964, boasts a 54-year history and stands as a vital transportation link between Changshou River Street and the city. Against the mountains, it ascends and descends via cables, navigating cliffs to meet at the mountainside. As China's longest, steepest, and longest-running ground passenger cable car, it is celebrated as a marvel of the mountain city, providing a unique and beautiful journey. Next to, San Daoguai Ancient Village, situated in the northeastern corner of Changshou District in Chongqing, is the best-preserved collection of Ming and Qing Dynasty street and market buildings in the Three Gorges Reservoir Area. Known as "San Daoguai," this ancient street market has earned a place among the top 15 historical and cultural streets in China. The street, featuring three sharp turns and six sections, derives its name from encountering three sharp turns while walking. Today, San Daoguai serves not only as a historical reflection of Changshou but has also evolved into a comprehensive tourist destination for film and television shooting, nostalgia experiences, folklore collection, and leisurely sightseeing. Next, Tongjing Hot Spring. Spanning 15 square kilometers, the Tongjing Hot Spring Scenic Area is a diverse landscape featuring mountains, water, forests, springs, gorges, caves, waterfalls, celestial pools, small islands, ancient forts, and eagle groups. Noteworthy for its large flow, high temperature, excellent water quality, and significant medical and scientific value, the area combines "calcium sulfate hot springs" and "heavy calcium carbonate cold springs," ranking among the top in China and the first in the southwest. The experience is enhanced on misty rainy nights, creating an ethereal "Night Rain in Bashan" reminiscent of ink-wash painting, with the city and mountains depicted in ink and watercolors. Ciqikou, situated on the banks of the Jialing River in Shapingba District, Chongqing, dates back to the Song Dynasty. Characterized by a unique landscape of "one river, two streams, three mountains, and four streets," it serves as a natural hot spring and a vital water and land terminal along the Jialing River. Once bustling with activity, Ciqikou was known for its vibrant daytime crowd and illuminated nights. Enriched with Ba-Yu culture, religious culture, ceramics culture, Hongyan culture, and folk culture, Ciqikou is considered a miniature and symbol of ancient Chongqing, earning the affectionate title of "Little Chongqing." Next to, Tanzishi Old Street. Tanzishi Old Street, designed with the concept of "Old Street, New Delights," showcases traditional Sichuan and Chongqing architectural techniques in its reconstructed form at the original location. Visitors can appreciate raised platforms, cantilevers, stilt houses, and boat structures, savoring the ancient buildings' beauty in the mountain city. The old street offers a panoramic view of the Yangtze and Jialing Rivers' confluence, and ascending along an 80-meter height difference provides a unique charm of "looking at the river in front and the city behind." Core landscapes include "One Street, Two Ports, Four Courtyards, and Ten Scenic Spots," with notable features like Wang Family Mansion, Sun Family Garden, Xia Family Mansion, and Qingyang Mansion.
